UNITED STATES PUBLIC HEALTH SERVICE.

RUPERT BLUE, *Surgeon General.*

DIVISION OF SANITARY REPORTS AND STATISTICS

Assistant Surgeon General JOHN W. TRASK, *Chief of Division.*

The PUBLIC HEALTH REPORTS are issued weekly by the United States Public Health Service through its Division of Sanitary Reports and Statistics pursuant to acts of Congress approved February 15, 1893, and August 14, 1912.

They contain: (1) Current information of the prevalence and geographic distribution of preventable diseases in the United States in so far as data are obtainable, and of cholera, plague, yellow fever, and smallpox throughout the world. (2) Copies of the laws and regulations being enacted or adopted by State and municipal authorities for the safeguarding of the public health. (3) Articles relating to the cause, prevention, or control of disease. (4) Other pertinent information regarding sanitation and the conservation of the public health.

The reports are intended primarily for distribution to health officers, members of boards or departments of health, and those directly or indirectly engaged in or connected with public health or sanitary work. Articles also of interest to others are either reprinted from the PUBLIC HEALTH REPORTS or issued as supplements, and in these forms are available for general distribution to those desiring them.

Requests for and communications regarding the PUBLIC HEALTH REPORTS, reprints, or supplements should be addressed to the Surgeon General, United States Public Health Service, Washington, D. C.
